GIVE HIM A CALL.

Take Notice.

THAT it is intended by the Board of
Trustees of the School District of
SUMMITT, T. S. 14, that Public School
District, No. 34,

Of the North West Territories, to borrow the
sum of FOUR HUNDRED DOLLARS,
(\$400) upon the security of the said District,
by a debenture thereon, payable in ten equal
instalments, with interest at eight per centum per annum, for the
purpose of erecting a School House, and for
fittings and contingent expenses, being,
\$325.00 for erecting a School House, and
\$75.00 for fittings and contingent expenses.

Voting thereon, by the Ratepayers of the
District, will take place at the School House
on Section 28, Township 16, Range 8, West
of the 2nd Principal Meridian, in the North
West Territories, on

Saturday the 28th day of August, 1886,
between the hours of 10 a.m. and 4 p.m.

The qualifications of voters are as follows:
(1.) Being bona fide ratepayers of said
District; (2.) Payment of the School Taxes
assessed against him, or her on the last re-
vised assessment roll of the District or of the
Municipality for the District; (3.) Being of
the full age of twenty-one years; (4.) Not
being an alien or unfreehold Indian; (5.)
Not having voted before at said election; (6.)
Not having received any reward either
directly or indirectly, for having no hope
of receiving any reward for voting at said
time and place.

—THOS. FLEMING,
Chairman,
JOHN MITCHELL,
JOHN LAMBLEY,
Trustees.

Public Notice.

BY the Trustees of the School District of
MOUNT PLEASANT Protestant Public
School District No. 39 of the Northwest
Territories, to raise by way of a loan the
sum of SIX HUNDRED DOLLARS.

Whereas it is deemed expedient by the
Trustees of the School District of
MOUNT PLEASANT Protestant Public
School District No. 39 of the Northwest Ter-
ritories, that the sum of SIX HUNDRED
DOLLARS should be borrowed on the security
of the said School District by the issue of
debentures payable to the bearer in Ten
equal annual instalments, with interest at
eight per cent. per annum from date of
issue for the following purposes, namely:
\$400.00 to build a School House,
\$200.00 to furnish same.

Therefore, notice is hereby given by the
Trustees of said School District that a Poll
will be opened by the undersigned Chair-
man of the said Trustees at the School
House in said School District, Sec. 24, Tp.
15, Range 15, west of the second Principal
Meridian, on SATURDAY, THE 14th
DAY OF AUGUST, 1886 at the hour of Ten
o'clock a.m. and will continue open until
Four o'clock p.m. of the same day, when
the votes of those duly qualified to vote
thereon, will be taken for or against raising
the said sum of SIX HUNDRED DOLLARS
by way of a loan on the security of the said
School District as hereinbefore set forth.

The qualification of voters is expressed in
the following oath, which persons desiring to
vote must take if required:

"I do solemnly swear that I am a
bona-fide resident ratepayer of the School
District of Mount Pleasant Protestant Public
School District, No. 39 of the Northwest
Territories; that I have paid the School
taxes assessed against me on the last re-
vised assessment roll of the District; that I
am not an alien or unfreehold Indian; that I
have not voted before at this election and
that I have not received any reward either
directly or indirectly, nor have I any
hope of receiving any reward for voting at
this time and place. So help me God."

Of which all persons interested are hereby
notified and are required to govern them-
selves accordingly.

J. H. FRASER,
Chairman of Trustees,
F. F. GOODWIN,
GEO. SCARLETT,
Trustees.

Dated at Edgely this 21st day of July, 1886.

ASTRAY.

CAME into the premises of the under-
signed, Sec. 10, Tp. 19, Range 15,
A 4 year old steer, red and white.
A 2 year old steer, roan.
A 2 year old steer, dark red.
The owner is requested to prove property,
pay expenses and take them away.

August 8, 1886.
E. J. FROM.

MANITOBA DAIRY ASSOCIATION.

The following explains itself:
WINNIPEG, MAN., 1886.

DEAR SIR: I have pleasure in in-
forming you that at the organiza-
tion meeting of the Manitoba Dairy
Association, held in Winnipeg, on
July 14th, the following Board of
Directors were elected:

Wm. Wagner, M. P. P., Ososowa;
C. V. Halliwell, Morden; H. W.
White, Carberry; J. E. Gelley,
Royal; J. A. Sharpe, Wapoka; J.
M. J. Mulvihill, St. Laurent; W.
M. Champion, Redfern; R. P. Fraser,
Minnedosa; Acton Burrows
and C. B. Keenleyside, Winnipeg.

At a meeting of the Directors
held in the North-West Farmer office,
Winnipeg, July 28th, officers
were elected as follows: President,
Wm. Wagner, M. P. P., Ososowa;
First Vice President, R. P. Fraser,
Minnedosa; Second Vice President
J. E. Gelley, Royal. Secretary,
Treasurer, C. B. Keenleyside, Win-
nipeg; Auditor, Thomas Gelley,
Winnipeg.

It was decided to hold a general
meeting or convention of the Asso-
ciation in Winnipeg during the
Provincial Exhibition week. The
Directors will meet in the North-
WEST FARMER office, Wednesday,
September 23rd, at 8 p.m., and the
Association at 10 a.m. next day,
the place of meeting to be hereafter
chosen.

It is expected that interesting
papers on Dairying will be read be-
fore the convention. It is highly
desirable that the Association
should start out under favorable cir-
cumstances, and a large attendance
at the convention in September is
solicited. The Secretary-Treasurer,
or any of the officers, will be glad
to receive the membership fee of
\$1.00 from anyone wishing to join.
Every person interested directly or
indirectly in the dairy interests,
who may be in Winnipeg during
the general meeting will be wel-
come to attend, and may pay the
subscription then.

In Ontario there are two such or-
ganizations in existence, each power-
ful and in receipt of an annual
grant from the Provincial Govern-
ment of \$2,000. They have been
of great benefit to the Province at
large by fostering cheese factories,
creameries, and to their members
by the interchange of ideas. At
their annual conventions, able and
scientific lectures are delivered by
men who have made Dairying a
life study; in addition to papers by
members of the Association, on
topics of great local interest. By
these means they have succeeded in
raising very materially the quality
of the butter and cheese made in
that Province, and thus necessarily
increasing the amount received by
the farmers for these products. From
the reports of the Ontario Dairy-
men's Association, it is found
that Ontario exports five times as
much cheese as the balance of Cana-
da combined.

Of \$54,890,000 worth of butter
imported annually by Great Britain,
only \$1,706,817 worth goes from
Canada, or about 3 per cent., and of
\$22,110,000 worth of cheese im-
ported by the same country Cana-
da sends \$6,451,870 worth or 29
per cent.

From carefully compiled statistics
it is found that Sweden exports
twice as much butter as Canada,
and has about an equal population;
and Holland ten times as much
with hardly as large a population.

Speaking on this question a
well-known dairy authority lately
wrote:

"In looking at the splendid show-
ing of some of the European coun-
tries, in butter production and ex-
port, we find ourselves asking:
What is the secret of their success?
One of the chief causes of improve-
ment has been the wise aid given

by the State in the way of educa-
tion, etc. Experimental stations,
agricultural and dairy school, travell-
ing dairies, etc., have been an ef-
ficient means of pushing the industry
forward. Denmark was perhaps
the pioneer. Germany and other
nations are following very close.
Even in Canada it was Government
aid that co-operated with creditable
private enterprise to give us our
high position as an exporter of
cheese."

In view of these facts it must be
patent to all that an organization
such as the Manitoba Dairy Asso-
ciation is a pressing necessity and has
a great work to do. If the farmers
of Manitoba would only combine on
this question, the result would be
improved butter and cheese, and, as
a natural result, improved prices, to
the advantage of all. The Province
can put on the market as fine dairy
products as any country in the
world, and the position it holds now
is a self assigned one. The day
will come when "Manitoba Butter,"
and "Manitoba Cheese" will com-
mand like "Manitoba hard wheat,"
the top prices in the world's market.
The object of the Manitoba Dairy
Association is to help bring about
this state of affairs. To accomplish
much good the Association must
have a large membership; it is
therefore hoped that the farmers
generally will respond to this cir-
cular.

Yours faithfully,
C. B. KEENLEYSIDE,
Sec.-Treas.

NORTHWEST GAZETTE.

The Northwest Territories Gaz-
ette contains the following:

To be justices of the peace: Geo.
A. Stewart, of Banff, Alberta; and
Jacob W. Smith, of Regina, Assini-
boia.

To be notary public: Robert
Dundas Strong, of Qu'Appelle, Assi-
niboia.

To be fire guardians: John Her-
ron and Charles Kettles, of Pincher
Creek; W. Bell, of Waldron Ranch;
Wm. Cochran, of Cochrane Ranch;
F. C. Underwick, of North Fork; F.
W. Gosdal, of South Fork; and
John Duthie, of Pincher Creek, all
in the provisional district of Alberta.

Advocates enrolled: Adelaide P.
Forget, Edouard Richard, Battleford;
Charles C. McCall, McLeod; Ed-
ward P. Davis, Calgary; R. Dun-
das Strong, Qu'Appelle; Hayter
Reed, Regina.

Registered as practitioners: John
Alexander Duncan, Moose Jaw;
John H. C. Willoughby, Saskatoon;
Augustus Jakes, Regina; William
Hall, Fort Qu'Appelle; John Chris-
topher Holme, Maple Creek; James
Collinge and Maurice M. Seymour,
Fort Qu'Appelle.

Proclamations—Erecting school
districts of Lebret (Catholic), Dales-
boro, Golden Plain and Battleford.

Minutes—Empowering the Pro-
testant public school districts of
Boggy Creek, Victoria Plains,
Moosomin, Wapella, Revine Bank
and Spring Corrie, to borrow mon-
ey; also herd law for townships 17
and 18, range 11.

It also contains the proclamations
by His Excellency the Governor-
General, granting amnesty to un-
convicted persons engaged in the in-
surrection of 1885.

The Government in response to a
petition has decided to establish an
outpost of Mounted Police at Trout-
wood Hills in order to protect set-
tlers, on the Prince Albert trail.
The detachment patrolling near
Batoche will continue performing
that duty for the present. The gar-
d in the southern part of the terri-
tory is working well.

Knights of Labour have not re-
lated parliamentary candidates in
the central and west divisions of
Montreal.

THE MAIL ROBBERY.

Prince Albert Times July 23rd:
On Saturday last while the mail
horses were slowly jogging along
on their way to Prince Albert, a
short distance this side of the Salt
Plains, and just as they had round-
ed the point of a bluff, the driver
was roused up by a cry of "Halt!"
Not for a moment imagining any-
thing wrong, and thinking he re-
cognized the person speaking, the
driver pulled up his horses, when to
his surprise, a gentlemanly Dick
Turpin rode up armed with a double
barreled shotgun and ordered the
three occupants—Acting Mayor
Betts, of Prince Albert, and one
Fiddler, a half-breed, who were
passengers, with the driver John
Hart, to hold up their hands. On
Mr. Betts asking the man if he
were in earnest, he was politely
told to shut up and get down or
take the consequence. The party
seeing no other alternative, alighted,
when, telling Fiddler to stop the
horses up a short distance, the rob-
ber ordered Mr. Betts and the driver
to turn their backs to him, and
kneel down a short distance apart
from each other, when he proceeded
to tie their wrists securely together.
It was quite evident he expected
to secure a large amount in cash, as
he did not seem to look for anything
else, tossing aside letters containing
only cheques or other valuables.
After securing packages containing
\$1,000 sent to Macarthur &
Knowles by the Commercial Bank
of Manitoba, and smaller amounts
from private letters, making about
\$500 more, the robber mounted his
horse and rode away, telling Fiddler
to untie the others when he had
got to a certain distance. On being
untied the party quickly gathered
up the scattered contents of the
ransacked mail bags, and loading
everything on the wagon, made
their way to the next station (Humboldt)
from where they wired the
news east and west. Mr. Betts'
description of the robber is that he
was about 5 feet 10 inches in
height, dark brown hair, 35 years
of age, and weighed about 160
pounds; was dressed in knitted
guernsey, dirty brown pants, slouch-
ed hat, with coarse brigans on his
feet. After all, it is not a very
surprising fact that this robbery has
taken place. In fact it is more
surprising that something of the
kind had not happened long ere
this, in a country where the mail
travels miles and miles of lonely
prairie, without even the shadow
of an escort or protection. Happily
this lesson has been taught us with-
out loss of life—a lesson which we
trust will be taken advantage of, in
such a manner that the like may
not occur again. Previous to this
in the early dawn, a tent occupied
by Mr. Swanston and party, had
been visited and the occupants re-
moved of what cash they had about
them. As far as known, both rob-
beries were committed single
handed.

Prince Albert Times: The mer-
chant says that their retail trade
in flour has absolutely broken down.
In fact, says it was safe to say
that no Indian or squaw entered
the store for one of their first pur-
chases of flour; but it is no
more. Nor do they take any
interest in tobacco, as they for-
get to spend money on their
clothes and the necessities of
life. The reason for this is that
the Indian population is so small
that it is impossible to do business
with them. The Indian office
is now working well, and the
Indian population is increasing.

The Qu'Appelle Progress

Is Published every Thursday

At The Progress Printing Office, in the Town of Qu'Appelle, Assiniboia, Canada.

Subscription price: \$1.00 per annum, in advance; single copies 5 cents.

The rates for our advertising space by contract are as follows:

	One	One	Three	One
	week	month	months	year
One column	\$10.00	\$15.00	\$35.00	\$100.00
Half column	8.00	10.00	25.00	60.00
Quarter column	5.00	7.00	15.00	40.00
Three inches	2.00	3.00	7.00	30.00
Two inches	2.00	3.00	7.00	20.00

Business cards \$1.00 per month payable quarterly.

The above rates do not apply to auction sales, entertainments, tenders, meetings, legal notices, or anything of a transitory nature. Transient advertisements, 10 cents per line first insertion, 5 cents per line each additional insertion. Yearly advertisements allowed to be changed monthly, if notice \$1.00 will be charged for each additional change.

Business locals, 50 cents for first, twenty-five words, 2 cents for each additional word.

The publisher reserves the right to refuse to accept advertisements of a questionable or objectionable character.

Address, JAMES WEIDMAN, Qu'Appelle Station, Assin. E. J. WEIDMAN, Proprietor.

NOTES AND COMMENTS.

It is generally understood that Superintendent Egan of the C. P. R. has been offered and will accept a higher position on the St. Paul, Minneapolis and Manitoba Railway at an increased salary. In losing Mr. Egan, the C. P. R. will lose a valuable officer.

In response to a petition asking protection to travellers and settlers on the Prince Albert trail, the Government has decided to establish a Mounted Police Post at Touchwood Hills. This is as it should be, especially if an escort accompanies the mail en route through the unsettled parts of the trail.

Some sorehead at Regina has been writing to the Toronto World that "Sir John Macdonald had discovered during his tour the absolute impossibility of his friend Dewdney receiving a second term or even an extension." Sir John discovered just the reverse at the demonstration in his honor at Regina, on which occasion he was given ample evidence of Mr. Dewdney's popularity. Happily the Dominion Government is not guided in its appointments by the feelings of soreheads, who unfortunately sometimes succeed in getting their drivellings into print.

And now the Regina Leader advocates that the Dominion Government plow fire breaks every six miles all over the Northwest in order to spend some money among the farmers, and reduce the possibility of prairie fires. Notwithstanding partial failure of crop the Progress does not believe that the independent-spirited farmers of the Northwest are disposed to be beggars soliciting the charitable distribution of Government money. Our farmers will take legitimate work to earn money but they believe the Federal authority has better use for its money. When they are reduced to such a state as to require to be pensioners on the bounty of the Government, they will let the Leader know. Meantime we would advise our contemporary not to make the Northwest appear in a worse light than it is.

Last week we devoted a large portion of our space to the Ordinances of the Northwest Territories respecting stray animals. For the information which we gave, the Progress is indebted to Mr. R. Dundas Strong, Qu'Appelle's able Advocate, who carefully explained the Ordinances on this subject at our request. The careful reader will have observed that the law re-

quires any person finding stray animals to put them in pound. It is illegal to keep them on the premises and advertise for the owner, though this has become a custom, and we think the law should be amended in that direction. It is the least expensive for the owner of a stray animal for the finder to keep it and advertise it instead of having it put in pound. The owner will also in many cases find his property much quicker than if impounded. Though it is not the law of the Territories to retain and advertise stray animals, it has become a custom, and it is well to follow it till a law to that effect has been placed on our statute books.

RAILWAY BUILDING RACE.

RAPID CITY'S HOPES.

It would seem that after years of waiting Rapid City is now to have two railways. The new Northwest Central Railway Co. according to latest reports shows considerable vigor, and it is stated that their line is to be constructed through Rapid City in time to move this season's crops. It seems now a question which of two roads will get into Rapid City first. One has signs on it from the southeast, and another from the northeast. The Manitoba and Northwestern Railway Co. have surveyed a branch in from Minnedosa, and work was to be begun this week on its construction according to the article below copied from the Minnedosa Tribune:

"The inhabitants of Rapid City have so often had their hopes raised only to be dashed to the ground, with regard to railway matters, that most of them have made up their minds they were not going to get a road at all, and were much discouraged in consequence. Now, however it looks as if a bona fide road would be built to that town this fall. Surveyors are out locating the line, and it is understood the contract has been let for some of the grading and that work will be commenced as early as Monday next, and the road will be finished and trains running at least to Rapid City in time to carry out this season's grain and other produce. We are glad to be able to make this statement and hope it will be fully carried out. No doubt the people of Rapid City will also be glad to hear it, as the life of their town depends so much on railroad communication with the outside world. Business will increase, and the many vacant farms surrounding the town will be again occupied by their owners, many of whom have stated their intention to return if a railroad were built, and who only went away to take up second homesteads in the territories to be near one. There is one thing, though, in connection with this branch, it is hoped the company will give due consideration, and that is the starting point. It is rumored the line will start from the first siding west of Minnedosa, on account of its being the nearest point to Rapid City, but it is hoped it will be run direct from Minnedosa down the valley on the southeast bank of the river. From an outside view it looks as if the slight difference in distance would be more than made up by the lighter work required in the valley, and by being able to run the line into the centre of Rapid City, while by running on the opposite side, heavier work is necessary, and the line cannot get as close to that town.

The company seems determined to commence on the hill and efforts are being made to induce it to reconsider the matter, as it would suit Minnedosa much better in the valley. Now is Rapid City's opportunity. Let it step in at once and with joint action and a little assistance, matters may be arranged to suit both towns. Minnedosa does not want the junction outside of the town, and Rapid City does not want its station two miles off—the nearest the company says it can come by the projected route."

METEOROLOGICAL STATISTICS.

Rainfall at Qu'Appelle during the months of April, May, June and July, in the years of 1885 and 1886.

MONTH.	1885.	1886.
	Inches.	Inches.
April,	0.10	1.33
May,	1.05	1.79
June,	2.25	0.47
July,	1.24	2.26
Total,	4.64	5.85

Average rainfall throughout the Province of Ontario, Quebec and Manitoba, for the years 1881 and 1882, during the months of April, May, June and July:

MONTH.	1881.	1882.
	Inches.	Inches.
April,	0.96	1.41
May,	2.40	3.12
June,	2.80	3.26
July,	2.06	1.83
Total,	7.62	9.62

MONTH.	1881.	1882.
	Inches.	Inches.
April,	0.82	0.90
May,	3.20	2.02
June,	1.80	4.98
July,	3.41	4.09
Total,	9.23	11.99

MONTH.	1881.	1882.
	Inches.	Inches.
April,	0.38	0.63
May,	2.37	0.59
June,	3.74	1.90
July,	1.22	4.47
Total,	7.71	7.59

It will be observed from the above tables that the rainfall here during the growing months compares not unfavorably with that of Manitoba during the same months in the years 81 and 82 which were years of magnificent crops in that province, and from previous observation I am satisfied had not the drought during June been accompanied by unprecedented heat the crops here would not have suffered, the harvest would have been later but an abundant one, and as such a combination is most rare in these latitudes its recurrence for years to come is highly improbable.

It should also be borne in mind when comparing the rainfall of this district and Manitoba with that of the Eastern Provinces that owing to our Northern latitude and altitude above sea level the nights are usually cool and consequently precipitate heavy dews which there is no method of gauging but which from a very important element in promoting the growth of vegetation.

LESLIE GOLDSON, Qu'Appelle Observatory, Aug. 10/86

WOLSELEY.

COUNCIL MINUTES.

Council assembled at Wolseley, on Saturday, August 7, 1886. Present all the members.

The minutes of the last meeting were confirmed.

The Qu'Appelle Bridge Committee reported that the bridges at Osler's and McLean's had been duly completed and approved by the Government Inspector, and recommended the contractor be paid. Adopted.

The Clerk was instructed to forward the certificate of completion to the Lieut.-Governor with a request for payment of the balance of the grant.

The Cleahey Bridge Committee reported the work completed according to amended plans, and recommended payment of the contractor. Adopted.

The Summerberry Bridge Committee reported the completion of the culvert at Mr. Samuel Fleming's and recommended that the contractor be paid. Adopted.

The following petitions were received from the undermentioned school districts asking for the advances set against their respective names to meet urgent expenses until such time as the taxes be collected:

Westfield, \$100; Summerhill, \$100; Summerberry, \$100.

Moved by Coun. Nimmens, sec. by Coun. Fleming, that with a view to meeting the above applications the sum of \$500 be borrowed under clause 166, N. W. Municipal Ordinance, 1885 and if the amount be obtained that the Chairman be authorized to issue orders on the Treasurer for the amount on the understanding that the school districts be answerable for interest and expenses.

An amendment was moved by Coun. Crozier, sec. by Coun. Hall, that the amount to be advanced to these school districts be reduced to \$75.

The amendment having been lost the original motion was put and carried.

Petitions having been received from certain ratepayers to put their statute labor on the approaches to the new bridges.

It was resolved that all persons desiring to put their statute labor on the hill and approaches to bridges be permitted to do so and that such parties be granted a commutation of statute labor for future years to the extent of work performed.

The following accounts were passed and ordered to be paid: Cleahey bridge, \$118; culvert at S. Fleming's, \$38; J. P. Hill mileage, \$2.40; Treasurer, salary, \$26.04; Clerk, salary and postage, \$52.99; cutting brush on bridge work, \$8.10; H. C. Pollock, Wolseley bridge, \$10.

The chairman was also instructed to authorize the payment of the balance of the contract for the Qu'Appelle bridges amounting to \$775 on receipt of the amount due thereon from the Northwest Government.

A letter was read from Dr. Bain respecting his account for attendance on G. Wright, and the Clerk was instructed to inform him that the Corporation was not liable for the amount.

An application for a grant in aid of grading approaches to the Qu'Appelle bridges was postponed till it was ascertained how far such work could be performed by statute labor.

A grant of \$100 was voted to the Wolseley Agricultural Society.

A letter was read from the Lieut.-Governor granting the \$400 applied for for cutting approaches and building bridge over Wolf Creek, between sections 6 and 31, townships 17 and 18, ranges 9 and 10.

The Clerk was instructed to enquire as to the cost of a safe for keeping the corporation papers.

Moved by Coun. Fleming, sec. by Coun. Jolly, that in cutting the approaches to the bridge over Wolf Creek for which a grant has been obtained from the Lieut.-Governor, that Coun. Nimmens be appointed overseer, and authorized to hire labor to complete the work, such labor to be paid for out of said grant, at the following rates per day: Man and team, \$2.75; man, \$1.25. Carried.

A telegram was received from Mr. Ford agreeing to build the mill.

A bylaw to borrow \$500 was read a first and second time, and by the unanimous vote of the Council, put through the remaining stages and passed.

The Council adjourned to meet again when called by the Chairman, and the Chairman was instructed to call a meeting immediately on the arrival of Mr. Ford or his representative from Ontario.

Mr. Burgess, Indian instructor, has just returned from Lake Dauphin, and brings the interesting intelligence that Mr. Barker, of Minnedosa, and Mr. A. McDonald, of Strathclair who have for some time been engaged in b-ring, have struck petroleum in two places in the vicinity of the lake. Both in flow and quality the wells are believed to be equal to the best either in Canada or the States. There is now a certainty that Manitoba will produce oil for exportation as well as for home use. The underground riches of the Lake Dauphin country have, for some time, been attracting attention amongst the adventurers, and there is little doubt but the important discovery now made will be followed by others of still greater value.—Birdie Observer.

—Fire works of all kinds at THE PROGRESS STORE.

COUNCIL MINUTES.

SOUTH QU'APPELLE.

The Council met on the 9th inst; all the members present; minutes of last meeting read and confirmed. Moved by Davidson and Craig that the account of Wm. Dunlop, amounting to \$75 be paid. Carried.

Moved by Thomson and Wright that Nathan Fallas be given his bond held by this Council for the completion of his work as collector, and that he be paid \$5, balance of salary. Carried.

Moved by Gorrell and Ross that a by-law to amend By-law No. 40, clause 1, be introduced at this meeting, changing date from Oct 1st to Sept 1st, on By-laws be carried.

Moved by Davidson and Thomson that the petition of J. B. Milliken and others be referred back for further consideration as the experience of well digging in the Town of Qu'Appelle is not such as would warrant the expenditure of \$600 00 in that way. Carried.

The By-law dividing the Municipality into Wards was read a third time and passed.

By-law to amend By-law No. 43, appointing road overseers was read a first, second and third time and passed.

By-law amending By-law No. 40 was read a first, second and third time and passed.

Moved by Davidson and Craig, that the Clerk be instructed to notify the different Poundkeepers in the Municipality of the change of date in their by-law.

Moved by Thompson and Wright, that as crops have suffered greatly, during the summer by gophers, this Council offer a bounty at the rate of two cents for each and every gopher killed in the Municipality on or before Aug. 30th 1886. The tail of a gopher delivered to any Councillor will be sufficient evidence for the Clerk to pay money for the above purposes.

Report of Committee: We your Committee on Roads and Bridges beg leave to report that the scrapers ordered from J. Doolittle by us have been delivered and we find them satisfactory and would recommend that the sum of \$800 be granted Roadoverseer for Division No. 3 for purchasing lumber for putting culvert across creek, report adopted.

Moved by Davidson and Ross, that the Chairman and Clerk be authorized to draw sufficient money out of Treasury to pay all bounty money for killing gophers. Carried.

The Council adjourned.

WHITEWOOD.

—There will be a big day's sport here on Friday, the 27th inst., when \$300 will be offered in prizes for horse racing, foot racing, jumping, etc. For further particulars see posters.

MR. EDITOR—DEAR SIR.

I send you a sample of potatoes that in my little garden did grow. I'm sorry the sample is not better but it's really the best I can show. The seed it was good that I planted. And my garden I dug it with care, but 'saves for the crop in potatoes. I'm sorry I've no more to spare. And the tops they really look splendid as good as I ever did see. But the tubers look something like marbles. And there's some just the size of a pea. I hope you'll not be disappointed. That the offering I send you is small. For during the dry and hot weather. I once thought I'd have no crop at all. Potato Vine.

Qu'Appelle, Aug. 9th, 1886.

NOTICE TO CREDITORS.

MRS. CARRIE MAHEL SUTHERLAND and MRS. CATHERINE WYNE BURDOCK, trading under the name of Stone & Murdoch, in the town of Qu'Appelle, N. W. T., as executors, have this day made an assignment to me of their stock in trade and book debts for the benefit of their creditors.

Notice is hereby given that a meeting of the creditors of the said Stone & Murdoch, will be held at the office of Peck & Co., 9, Melbourne Street, in the City of Winnipeg, Manitoba, on Friday, August 20th, 1886, at 2 o'clock, p. m. All parties having claims against the estate will please file particulars of the same with me, stating what security (if any) they hold, on or before the above date, after which I shall proceed to distribute the assets of the estate pro rata, on the claims of which I shall receive notice. Dated at Qu'Appelle this 7th day of August, 1886. J. W. FLEEDIE.

Poetry.

IS IT ANY BODY'S BUSINESS?

Tell it any body's business, if a gentleman should choose.
To wait upon a lady, if the lady don't refuse?
Or, to be a little plainer, that the meaning all may know.
Is it any body's business, if a lady has a beau?
Is it any body's business when the gentleman does call?
Or when he leaves the lady—or if he leaves at all?
Or is it necessary that the curtain should be drawn?
To save from further trouble the outside lookers on?
Is it any body's business but the lady's, if her beau
Rides out with other ladies, and doesn't let her know?
Is it any body's business but the gentleman's, if she
Should accept another escort, where he doesn't chance to be.
If a person's on the sidewalk, whether great or small,
Is it any body's business where that person means to call?
Or if you see a person as he's calling any-where,
Is it any body's business what his business may be there?
The substance of our query, simply stated, would be this:
Is it any body's business what another's business is?
If it is or if it isn't for we should really like to know,
For we're certain if it isn't, there are none who make it so.

BRITAIN'S WARS.

It is interesting to note the number of wars the British have been engaged in during the past century. It is only by such a review that we can reach a realizing sense of the unparalleled warlike force which has carried them to so many fields of victory. The ancient Romans had a temple, the temple of Janus, which was shut in time of peace, and open in time of war. During seven hundred years of Roman history it was only shut four times, and it would hardly have been shut oftener had it been in Great Britain instead of Rome.

One hundred years ago Britain was at peace, the independence of the United States had been recognized, a peace patched up with France, Spain and Holland. In India a peace had been made with the redoubtable Tipu Sahib. This desirable state of affairs lasted but a short time; in 1790 the war with Tipu was renewed and it was nearly thirty years before Britain knew what it was to be at peace with the whole world. A generation of men was born, grew up, and advanced well towards middle life who did not remember a time when their country was not at war. Tipu was not disposed of on this occasion until after his defeat at Seringapatam in 1792. The same year saw the beginning of the long war with France, a war which lasted, with two short breathing spells, until after the battle of Waterloo. Into this terrible conflict every European nation was eventually dragged, on one side or the other. In 1793 the British went at war with the Dutch, who had fallen under French influence. In 1796 they were at war with Spain, and in 1800 with Denmark and Russia. The latter country made peace with Britain after the death of the Emperor Paul in 1801. The result of these wars with Great Britain was the utter ruin of the naval power of France, Spain, Holland and Denmark; the French lost 683 ships of war, of which 115 were line of battle ships; the Spaniards lost 213, the Dutch 89 and the Danes 64. In these wars the British captured from their enemies or destroyed 207 line of battle ships, 351 frigates and 552 smaller vessels of war. The peace of Amiens made with France in March, 1802, caused a cessation of hostilities for fourteen months in Europe but, in the meantime the British had been kept busy in India. War with Tipu had broken out again in 1799, but the great son of Hyder Ali was killed the same year, and the following year the Carnatic was conquered. The war with the Marathas commenced in 1802, and lasted, with one or two considerable lulls, until 1818, when they were finally subdued. The war with Nepal commenced in 1814 and lasted a year, and the Pandur war was waged in 1817-18. The war with the United States of America commenced in June, 1812, and did not end until the beginning of 1815. All other direct Britain was engaged in more than twenty different wars with ten different nations and peoples from 1790 to 1820. This without counting the bombardment and destruction

of that nest of pirates, Algiers, in 1816. The first war with Burnah commenced in 1821, and ended in 1826. In 1819 the Kaffirs were at war with the British, and again in 1831. In 1832 there was war with the Rajah of Coorg, ending with the annexation of his territory two years later. The first war with China commenced in 1839, and did not end until 1843. There was war again with the Chinese in 1847. In the meantime the Afghan war had broken out in 1839, and did not end until 1842. The Scinde war began in 1843, the Gwalior war in 1845, and the Sikh war in the same year. It ended in 1849 with the annexation of the Punjab to India. The second war with Burnah commenced in 1851, and closed in 1853. At the same time a second war with the Kaffirs was being carried on, which ended about the same time. In 1854 Great Britain went to war with Russia and peace was not brought about until 1856. That year she went to war with Persia and China, and while in the middle of these contests was called upon to face the Indian mutiny. Three wars at once was rather more than enough. The war with Persia was concluded in 1857, that with China in 1858, and the Indian mutiny quelled in 1859. The British were again at war with China in 1860, and the contest closed the same year with the capture of Peking. In 1860 there was war with the Marois of New Zealand, which did not end until 1866. In 1863 there was a state of war with Japan. In 1868 there was war with Abyssinia, and Magdala was captured. In 1874 the war with the King of Ashantee ended in the destruction of his capital, Coomassie.

It is hardly necessary to relate the more recent wars, which are fresh in the memory of every one. The war with the Kaffirs, with the Zulus, and with the Dutch of the Transvaal in South Africa; the war with the Afghans, the war with Arabia in Egypt, the contest in the Sudan, and finally the last successful war with Burnah, which has ended in the annexation of the whole of that country to the British Crown. Nothing has been said of contests with the Hill tribes in India, which are frequent, or of petty quarrels which call for the services of British force in all parts of the world.

SUSPENSION BRIDGE.

Niagara Falls, July 26.—Some very important improvements are being made in the Niagara railroad suspension bridge which may turn out to be as dangerous as they are difficult of accomplishing in an engineering way. The bridge is one of the best points from which spectators can view the whirlpool rapids, which have been made famous by the trips of the Maid of the Mist, Capt. Webb, and Graham the barrel man, and in which the English swimmer lost his life. It is the only bridge at the falls which has a passenger way for foot passengers, none being allowed to pass on the cantilever bridge. The whirlpool rapids are nearly 200 feet below the bridge and begin just under it. The bridge was finished on March 23, 1855, and was for years thereafter considered a wonderful structure. In 1880 it underwent an important change when all the wooden portion of the bridge was removed and iron substituted for the extracted woodwork. The cables are the strongest portion of the structure and have never been disturbed because there is no question about their durability. When the iron was substituted for the wooden parts of the bridge six years ago, the travel on it was practically permitted to go on without hindrance. A much more important and troublesome change is the one now about to be made. The four massive towers of rock which support the big cables of the bridge are to be replaced with iron supports, and it is thought now, that although perhaps dangerous this can be done without much interference with the use of the bridge. Superintendent Swan said to the Globe correspondent that safety will be considered above all things, and every precaution to avoid an accident has been taken by Mr. Buck, the engineer in charge of the work. There will be times when perhaps the trains will be slightly delayed, so that even one chance in a thousand may contribute to the precipitation of such a disaster as would involve the hurling of a train into the chasm of Niagara. Working men are now making room on the sides of the towers for the preliminary iron

work, and stone is being chipped away with care by experienced men who know just which ones to remove. On the top of the towers, men who look like pygmies from below, are drilling holes in the caps, so that when the time comes the hydraulic jacks may be applied and the great cables safely cradled from the stone supports which have held them so long and placed on strong iron towers which will replace the stone ones. This branch of the work is regarded as very difficult and will occupy about two weeks' time. It is not unattended with danger, should some portions of the complicated apparatus give way at a critical time. So carefully, however, have all the plans been made that in the office of the bridge company are great piles of diagrams showing the exact location and dimensions of all stones, rivets and beams in the great structure. This work cost a large sum of money, but has proved invaluable. The iron work is being made in Detroit and the shipments of material will soon begin. The cost of the new towers will be \$40,000. Disintegration of stone is the reason for changing the towers.

THE C. P. RAILWAY.

The completion and opening of the Canadian Pacific Railway from ocean to ocean is one of those events which serve as a reminder of the terrific pace at which we Americans are moving. To those of us who have spent their earlier years in Canada it seems but little while ago that the project of an Intercolonial railway was regarded as a mere sentimental pondering to imperial military necessities; brought striking home, indeed, by the transport of troops from the sea-board to Quebec during the exciting weeks following upon the Trent affair in December, 1861. That road was to be simply a connecting link between the maritime and upper provinces; especially during the season of closed navigation. Not a quarter of a century has elapsed since then, in fact barely a decade since inception of the road, and yet to-day the Intercolonial is already earning dividends for a government which was blamed for sinking Canadian money in what was as some designated as a useless senseless enterprise. But if the railway, running as it does largely through that absolutely barren waste which borders on the south shore of the lower St. Lawrence, has already made for itself, irrespective of through business, a considerable local traffic, what may not be expected of the C. P. R., which traverses the finest wheat belt on earth—a region which was so aptly characterized by that keen observer, Lord Dufferin, as a country of unlimited possibilities, and which only awaited the advent of the iron horse for development into homes for multitudes? The marvelous engorging which built Canada's greatest trunk line four years inside of contract time is not likely to flag in its determined efforts to the C. P. R. in the very forefront of continental railway. It began well. Its first through passenger train, leaving Montreal on June 28th, reached the Pacific terminus on time. Possessing, by virtue of its following the line of a great circle of the globe, a route which saves 1,200 miles between Yokohama and Liverpool, its real terminus, it is not surprising to learn that already the second cargo of tea has left Japan for transmission over the C. P. R. to England. It will probably have the freightage of 12,000,000 bushels of Manitoba and Northwestern wheat this autumn to swell the figures of its way business, a business which already aggregates at the rate of over a million of dollars a month; and which promises to double itself in less than two years, that is as soon as the ordered lines of fast steamers are ready to complete connection on the two oceans. When people can go from the old country to the Pacific within ten days the full import of the opening of the C. P. R. and its relation to the older and competing inter-ocean lines of railway will be fully realized; and that we may expect to see in less than eighteen months. But the subject is so fruitful in crumbs of food for reflection that we must just now be content with submitting only a few of them as suggestive of grounds for that confidence in the future of the country which is a marked characteristic of all true Canadians.—Canadian American

"Are we running on time?" said the conductor, repeating the nervous passenger's question. "No, sir, we are doing a strictly cash business. Fare please."

A Montreal special despatch says: "General Manager Hosmer of the Canadian Pacific Telegraph Co., stated yesterday that his company had made a twenty years contract and the arrangements had also been made to connect with the Baltimore & Ohio system throughout the United States."

A superstitious subscriber, who found a spider in his paper, wants to know if it is considered a bad omen. Nothing of the kind. The spider was merely looking over the columns of the paper to see what merchant was not advertising, so that it could spin its web across his store door and be free from disturbance.

George Barker who has been prospecting for petroleum in the Northwestern part of Manitoba, struck some shale and clay near Lake Dauphin, having strong indications of oil. He has been to this city and received encouraging opinions from experts, and has gone out to his find to commence boring operations.

Lumber is now being manufactured out of paper, and the lumber is said to be better than the lumber that comes from the woods, for the reason that it will not warp, crack, or fall off. The only factory in the world where this straw lumber is made is at Long Island City. The lumber is now used for ceilings and walls in place of lath and plaster.

A novel flower has been found on the isthmus of Tehuantepec, at the San Jose hacienda, some twenty-two leagues from the city of Tehuantepec. This floral chameleon has the faculty of changing its colors during the day. In the morning it is white; when the sun is at its zenith it is red, and at night it is blue. This red-white-and-blue flower grows on a tree about the size of the guayave tree, and another peculiarity of this flower is that only at noon does it give out any perfume.

OUR TERMS.

We have placed our yearly subscription at the low rate of ONE DOLLAR, with the object of enforcing advance payment. We can much better afford to publish a paper at that price when we know that every paper going out is paid for, than if we took the chances of collecting accounts at a higher figure. Besides we will thus speedily secure a larger circulation, which will enhance the value of our advertising columns. So dear reader send us your name and a dollar, and get your neighbor to subscribe, and you will obtain full value for your money in interesting reading.

The Nor West Farmer Wants Manitoba

And the North West
TO YIELD A GREATER RETURN TO THE FARMER.

We are doing our best to bring about this happy state of affairs, and want the help of every intelligent man in the prairie provinces.

THE N. O. WEST FARMER AND MANITOBA MILLER.

Is devoted to the interest and advancement of agriculture on the prairies of Canada. It is filled each issue with running over with information, facts and practical experiences relating solely to the best methods of prairie farming in all its branches. It is for this reason invaluable to the farmer and stockman of the country, while its household and children's department provided over by a lady, makes it a most interesting companion at the fireside for the "good wife and bairns."

HELP ALONG OUR GOOD WORK

By Sending in Your Subscription.

Only \$1.00 per Year

To everyone who subscribes before Feb. 28th, we will give free of cost of the great home company, "Home and Health," a book of 100 pages, brim full of useful, curious and interesting information.

Write to the office of publication for a copy of the great premium list for this winter, or better still subscribe and receive the published list.

THE N. O. WEST FARMER PUBLISHING AND PRINTING CO. (LTD.)
WM. CLARK, C. B. KEANLEYAIDE, Editors.
No. 7, York St., Toronto.

We have made arrangements with the publishers of the above 25 pages journal, to club it with THE QUARTERLY FARMER. The regular subscription price of the FARMER is \$1.00, but by the clubbing arrangement now made, it is offered for only 75 cents per year.

HOME & GOSSIP.

QU'APPELLE.

—Statute labor fashionable,
—Walsh street is being graded
near St. Peter's church.

—The Regina Presbytery met on
Tuesday. Report next week.

—The Methodists of this circuit
have under consideration the erec-
tion of a parsonage here.

—You can get a microscope of
wonderful magnifying power at THE
PROGRESS store for 25 cents.

—Kill the gophers; it will pay;
the municipality now offers two
cents for each tail till Aug. 30th
next.

—The regular August Communi-
cation of Qu'Appelle Lodge of Free
Masons was held on Tuesday
evening.

—Mr. Van Horne, Gen. Manager
of the C. P. R., and party, went
east on Monday.

—Rev. Mr. Robertson, Superin-
tendent of Missions, occupied the
Presbyterian pulpit here on Sun-
day evening last.

—"Totato Vine" has remembered
that we have not a garden, and has
contributed some fine new potatoes
for our palate and some poetry for
our columns.

—By reference to the proceedings
of South Qu'Appelle Council it will
be seen that two cents is offered for
each and every gopher that is killed
before August 30th next.

—A meeting of the provisional
directors of the Wood Mountain &
Qu'Appelle Railway will be held
here on the 23rd inst., for the pur-
pose of opening stock subscription
books.

—The ditch along Tenth Avenue
from Walsh street westward should
be deepened and boxed in to drain
in the spring that part of the town
lying south of the Queen's hotel
and the new terrace.

—The recreation room in the im-
migrant building was beautifully
decorated for a dancing party at
which there was a large attendance
of the elite, and which was in pro-
gress as we went to press last even-
ing.

—About 15 o'clock on Friday,
last fire was discovered in a double
barn near the Northern Bell Farm
Cottage, occupied by Geo. Bingham.
The barn contained two horses,
which were burned to death, and
barn with contents will be a com-
plete loss.

—No examinations for candidates
for public school certificates will be
held until the second Tuesday in
January next. The work assigned
for examination in English literature
for 1st class certificates is
Shakespeare's "Merchant of Venice,"
and for 2nd class certificates, Scott's
"Lady of the Lake."

—On Monday evening while the
men who were digging the C. P. R.,
well here were at supper, water
forced its way up through the hard
clay in which they had been digging
at 190 feet. An effort was made to
bale it out but found impossible. A
pump has been put in and effort
will be made to pump it out in
order to finish the curbing at the
bottom. The water tastes of iron,
and it is thought the supply is
adequate.

—A meeting called for the pur-
pose of organizing a Brass Band was
held on Monday evening in Mr. G.
H. Bulyea's Store. A committee
consisting of Messrs. Beauchamp,
Johnston and Thomson with H.
Jagger as Secretary, was appointed
for the purpose of raising subscrip-
tions for the purchase of the instru-
ments which are estimated to cost
about \$300. All interested in the
formation of a band should con-
tribute liberally for this worthy ob-
ject. There will be no lack of per-
formers, several of whom have al-
ready had experience as instrument-
alist. Those desirous of contribu-
ting should hand their names in to
any member of the Committee.
Another meeting will be held on
Monday next in Mr. Bulyea's store
at 29 o'clock when a large atten-
dance is requested.

CRICKET MATCH.

ENGLAND VS. CANADA.

The return match between the
English and Canadian cricket teams
was played here on Saturday. The
weather was beautiful. Old So-
reign in all his splendor, and a
cool refreshing breeze blew from
the southeast. The crease was in
bad condition, making overhand
bowling deceptive to bats, trying to
bowlers, and lively for catches.

The representatives of Old Eng-
land went first to the wickets de-
termined to maintain the credit of
their country by winning at their
own game. Six of their number,
however, fell immediate victims to
Johnston's vigorous underhand bow-
ling, leaving but four to maintain
the credit of the team in the
field. They succeeded in rolling up
a score of thirty-seven runs, ten of
which were made by Empey—a
Canuck. These, together with
twenty-three byes, swelled the total
to sixty. The batting of Blake and
Elevall in this innings was excel-
lent, while Heppinstall and Thomp-
son playing more for style than
scores, quickly succumbed, the for-
mer being caught by Love and the
latter bowled by Johnston.

In the second innings the Eng-
lishmen went to the wickets in bet-
ter form than at first and though the
Canadian field was changed for the
better they scored fifty-six runs and
eight byes—total sixty-four. Thomp-
son, this time dropped style, played
for score and carried his bat through
having to his credit at the finish
fifty runs, Blake's batting stood
good for eleven, and Elevall was
caught for three. In this innings
as in the first, Johnston's swift, well
directed bowling was effectual on
seven of the eleven wickets.

The Canadians in the first innings
scored forty-eight runs against their
opponents' thirty-seven. However,
they were deficient in byes, a fact
which may be attributed to slow
bowling on the part of the Eng-
lishmen and the excellent long-topping
of Mr. King. The good fielding of
the English too told against the Can-
adians. By the analysis of the
first innings it will be seen four Can-
adians were caught out, three were
bowled, one was run out and one
stumped. With reference to the
stumping out of Johnston, we regret
to say the decision of the umpire, if
not altogether incorrect, was, to
say the least, too exacting. Those
who observed this particular inci-
dent of the game have not the slight-
est doubt that Johnston was within
his ground, and had not the umpire's
hasty decision cause him to give up
the bat he would no doubt have
rolled up a good score.

The second innings of the Cana-
dians resulted in a score of sixty,
eight of which were byes. In this
innings Robinson an humble mem-
ber of the team came to the front
with a score of seventeen and car-
ried his bat while Carthew, who
"preserved his goosey" in the first
innings, ran up nine. Beauchamp
immediately on taking the bat
knocked down his wicket and retired
aid, while Hodgson, ruled out on
a technical point, and allowed by the
umpire to resume if he pleased, po-
litely declined and left his wicket
after scoring nine points. Had the
decisions of the Umpires in John-
ston's case in the first innings and
Hodgson's case in the last, been
favorable there is little doubt the
Canadians would have been easy
victors. Following are the scores:

CANADIANS.—1st INNING.	
Johnston, stumped out	7
Carthew, b. Flavel	9
Hodgson, c. Canuck	1
Edwards, c. MacLellan	15
Robinson, run out	0
Oster, b. w	7
Thompson, b. Flavel	9
Beauchamp, not out	0
Love, b. Canuck	1
Baker, b. Thompson	8
McQuaid, c. Heppinstall	0
Extras	11
Total	59
2nd INNING.	
Johnston, c. Handman	6
Carthew, b. Flavel	9

Johnston, b. Johnston	4
Extras	4
Total	39

HOW QU'APPELLE BOYS KISS.

Cream and punches once a week,
Kiss your girl on the right hand cheek,
Apple green and apple colored,
Kiss her on the other side.

A. C. Patterson.

Take your girl in warm embrace,
Heart to heart and a face to face,
Eye to eye and nose to nose,
"Flirty flip" and away she goes.

A. Empey.

Seize a maiden in your arms,
Blushing with her tempting charms,
And it would, I think, be unkind,
Oft to kiss and tightly hug her.

Joe. Doallittle.

Or in the twilight softly cooing,
When I my own dear girl am "wooing,"
4 kiss her quick and at her go,
Swift pleasures better, far, than slow.

A. W. Hodgson.

If, in that "case," for Cupid's "chance,"
She shows an inclination,
I'll "kiss" her "form" in my "embrace,"
And practice seduction.

John Love.

I thought to press a kiss
Upon her lips as red as roses,
But ah! deceptive bliss,
Naught came together but our noses.

L. W. Mulholland.

I find my way by far the best
To get the senses in a whirl—
Just give your own dear girl a rest,
And kiss some other fellow's girl.

R. Johnston.

No, wanton, on the sofa sit,
(This well lit lights have not been lit),
Then place your arm her waist about,
And kiss her till your lips get out.

Joe. Beauchamp.

"The half way work you do at best,
Just fold her up to your throbbing breast,
And kiss her lips, her cheeks, her chin,
And then commence and kiss her again.

Joe. Robinson.

Take her on your knee at twilight,
In the garden where old folks won't mis her,
Wrap both hands around her tight,
And then—kiss her, kiss her, kiss her.

H. A. Asford.

I tell you how we did when young,
With handsome face and silvery tongue;
I made her mad and then she'd fight,
And then I'd kiss her just for spite.

W. E. Jones.

What's the use of all this rhyme,
Take your girl at any time,
Squeeze her till the blushing come,
Shut your eyes and—yum! yum! yum!

E. W. Warner.

But after all my way's the best,
And far surpassing all the rest,
First get your girl and then kiss her
Will take some of the hours of bliss.

The Bard.

(To be Continued.)

Dominion Lands Government Intelligence Office.

APPLICATION FOR PATENTS CAN BE MADE AT THIS OFFICE, F. L. OSLER,
Government Agent.

FOR SALE.

Ontario and Qu'Appelle Lands, many of them lying close to Qu'Appelle, on the C. P. R., at low prices, purchasers having the advantages of Churches, Schools, Daily Mail and good Stores, etc.,

P. O. Inspector's Office,
Winnipeg, Man., 29th July, 1885.

Take Notice!

THAT it is intended by the Board of
Trustees of the School District of POP-
LAR GROVE Protestant Public School Dis-
trict No. 31 of the Northwest Territories,
to have the sum of FIVE HUNDRED DOL-
LARS upon the security of the said District
by a Debenture thereof, payable in ten equal
consecutive annual instalments with interest
at eight per centum per annum, for the pur-
pose of building, furnishing and completing
a School House and Outbuildings in said
District.

Being \$400 00 for building and completing
the School House building,
" 50 00 for a Store and rustic fur-
nishing,"
" 50 00 for a Well and Outbuild-
ings.

Voting thereon by the Ratepayers of the
District will take place at the School House,
Section 29, Township 17, Range 9, west of
the 2nd Principal Meridian, in the North-
West Territories, on

Saturday, the 21st day of August, 1886.

Between the hours of 10 a. m. and 4 p. m.

The qualification of voters is expressed in
the following oath which persons desiring to
vote must take, if required:

"I do solemnly swear that I am a
bona fide ratepayer of the School District of
Poplar Grove Protestant Public School Dis-
trict No. 31 of the Northwest Territories;
that I hold the School taxes assessed me
on the last revised assessment roll of the
District or of the Municipality for the Dis-
trict; that I am of the full age of twenty-one
years; that I am not an alien or unfranchised
Indian; that I have not voted before
at this election, and that I have not received
any reward, either directly or indirectly,
nor have I any hope of receiving any re-
ward for voting at this time and place.
So help me God."

Of which all persons interested are hereby
notified, and are required to govern them-
selves accordingly.

HENRY MITCHELL,
Chairman of Trustees.
SAMUEL McORMACK,
GEORGE PETER,
Trustees.

Dated at Poplar Grove School House this
24th day of July, 1886.

J. H. MacCAUL,

DEALER IN

LUMBER,

SASH,

DOORS,

BUILDING PAPER, Etc., Etc.

OFFICE AND YARD NEAR C. P. R.
STATION, QU'APPELLE.
